Dear Sir,

This is with reference to the letter No. SEC/1ME/2018/5923-5929 dated 20.11.2018. There is slight confusion in three stage randomization process. As per previous experience of Assembly and Lok Sabha elections.

In first stage randomization Only PRO and First Polling Officer (APRO) is called for training with 10% to 20% reserve staff as per requirement of RO. This randomization is done in presence of RO Only. As per directions sent in above said notification It is assumed twice PRO & First Polling Officer (APRO) are called for first training through randomization process.

For Example

PRO required $278 + 278 = 556$

APRO required $278 + 278 = 556$

Total 1012 persons to called for first training.

In second stage randomization Party of four persons (PRO + APRO + 2PO) shall be formed in presence of Observer for whole municipality with 10% reserve staff called for second training.

In third stage randomization Booths shall be allotted to Parties in presence of observer.

Kindly clarify as earliest so that election process can be continue without delay.

Regards.

Sincerely

DIO Panipat
